Everything from women's health information to personal trainers, artwork, party accessories, photography, sheitls, baby accessories, and clothes.

Promoting Safety in our community

Dr. Adler

Riding on a bicycle or scooter and in particular the "Dangerous E-scooters", without protective head gear, high visibility jackets and front/back bright lights CAN BE FATAL!!

I have personally had near misses not seeing boys riding scooters on the road in the evening without lights!

It is the absolute achrayis of parents to make sure that their children do not venture out inadequately.

This is well documented and self-evident

HELMETS SAVE LIVES !!

"ונשמרתם מאוד את נפשותיכם"

If you can not be seen you can not be avoided!!

On a bike or a scooter you are vulnerable!!

Riding at speed or without a helmet, high vis and lights, you are a DANGER to yourself and other people on our streets.

Broken bones and head injuries can be the result of your carelessness.

No Helmet No Bike!! That's my rule! When they saw I'm serious with it they started to wear one. I am their mother and I have to protect them.

Dovid doesn't want to wear his helmet. He doesn't like the way it feels or looks and he says none of his friends wear a helmet. How do you get your boys to wear them?!

Correct.
I'll never forget what happened to my nephew riding back from school on chanuka without his helmet!!
I wish ALL the schools would help educate our kids more, with road awareness & safety.

K Thanks for that! So true!
Children are naturally unaware of the dangers!!

OUR GRADUATES ARE WORKING AT:

"The Motion Graphics course was excellent. It gave us familiarity with so many areas whereas other courses focus on just one aspect. The teachers were experts and so accommodating, and gave their all to the students. I'm so glad to be part of a big network of like-minded people now - I wouldn't have had access to them without Design Alive!" - Teva Ungar
