Purple Spaghetti

COLOUR THEORY FOR KIDS

BY CAROLE RUDICK

To order email: WHITERIVERBOOKS@GMAIL.COM

Ages 3 to 6 years. Purple Spaghetti: Apparently when I was about 4 I invited friends to lunch and coloured the mash potato green in order for it not to be BORING! When my children were small and very picky eaters I prepared everything with sprinkles over it. But for my Grandchildren I knew this would not be welcomed as today's young mothers are so much better informed about nutrition than we were. When they came over I had to report back that they had eaten lunch or I felt I would have failed in my grandmotherly duty. This led to my colouring the spaghetti with a tiny splash of food colouring and was greeted with great glee and willing appetites. Consequently, for a while afterwards they refuse to eat pasta unless it is coloured but that soon wears off and by then they are well into eating pasta. This story is every kids favourite and I have received many a fond accolade for it.
