Let's Talk...

...About Perinatal Mood Disorders

Motherhood should be a joy. But 1 in 4 women suffer from a perinatal mood disorder. Perinatal means from conception to 18 months post-birth. Mood disorders include anxiety, depression, OCD, and birth trauma.

Those affected feel isolated and reluctant to talk about their experience. That's why Menucha was launched to provide advice, support, and understanding.

If you or someone you know could benefit from Menucha, let's talk.

YOUR CHILD IS *very-very*

Very active, very imaginative, very spacey, very fidgety, very aggressive, very sensitive, very intense.

Very-very children are very in so many areas.
It's hard to know where to start.

Join us @GiftedSpace and learn how you can help your very-very child.

**PARENTING
COURSES
STARTING**

DECEMBER 1ST

It's modular
you only take (and pay for) the modules that apply to your child

It's practical
hands on exercises

It's life-changing.

It's works!

"I needed a new approach to help us all function better, so I took the course. So enlightening, practical, validating! But most importantly, it turned daily frustrations into joy. Instead of confused, frustrated and stressed - I am now amazed and appreciative of the incredible overflowing package Hashem bestowed upon my child. With the right tools she absolutely soars!"

A vintage-style illustration of a young girl and a young boy. The girl, on the left, has blonde hair and is wearing a white dress with pink floral patterns and a large white bow in her hair. She is looking down at a small, open book or card that the boy is holding. The boy, on the right, has blonde hair and is wearing a dark suit with a white shirt and a dark bow tie. He is also looking down at the book. They are sitting on a yellow, rounded object, possibly a stool or a large flower. The background is a solid dark color.
