“

We have tried other brokers but came back to Lifepoint as they get it right every time! They are so friendly and helpful, with phones that actually get answered. They will get you what you want, not what is just good for them.

Finally, they always managed to get us the best deal compared to anyone else. I would recommend them to anyone!

TEPOTINIB

You pronounce **Tepotinib** as *teh-poh-ti-nib*.

Tepotinib is a highly effective drug used to treat **Non-Small Cell Lung Cancer**, aka **NSCLC** with **METex14** skipping alterations.

Tepotinib is a type of **tyrosine kinase inhibitor** that blocks a protein made by the **METex14** gene. It may help keep cancer cells from growing and spreading and may kill them.

This drug was FDA-approved for use in the USA in February 2024, but it is still only available on special arrangements in the UK and EU.

TEPOTINIB

PATIENT CASE #00010149

A 42-year-old mother from the Kehillah, was diagnosed in April 2022 with **NSCLC**; she has been given three lines of treatments over a 14-month course without success. After requesting **Next-Generation Sequencing (NGS)** testing in the private sector, the rare mutation **METex14** was identified.

MARS' case worker at the Thoracic Oncology department in **MARS' Oncology Division**, aware of this new treatment, concluded that her only hope would be to be treated with the new **Tepotinib** drug.

Although **Tepotinib** had not yet been approved in the UK and was still in trial at the time, as time was of the essence, **MARS' Oncology Team** arranged for her to receive the drug overseas. In the meantime, they worked tirelessly to bring it to the UK, and Besiyata Dishmaya managed to receive authorisation to administer the new **Tepotinib** drug locally.

B"n, treatment is going well; the house is happily functioning again with her being a mother for her husband and children.

ARE YOU LOOKING FOR A CHESS COACH?

I have an individual approach to all my students. I start off by assessing my students strength and then make a program specifically for their level of play.

It's important for me to make the lessons interesting, rich with content, engaging and fun.

I offer classes & private lessons - for beginners and all levels.

I also do virtual classes on zoom

through learning chess there is a vast amount of benefits: increases your IQ, builds confidence, deepens focus, develops and elevates creativity, boosts planning skills, develops problem solving skills, increases self awareness and improves memory

Chess club!

From age 6 to 18 years old
Thursdays from 6pm or from 7pm

**"I heard them
arguing about
money. It made
me scared."**

*It went on for a long time, and there was
nothing I could do.*

*But then something changed. We started
getting deliveries of all kinds of fruit & milk &
fish. I love watching the delivery man come
every week. My Daddy is much calmer now.*

THIS SUNDAY
& MONDAY

"Daddy wasn't around, and our savings had dried up"

I had young children who needed me to be their hero. I so desperately wanted to provide for them.

Keren Shabbos stepped in, & we started receiving weekly deliveries of fish, eggs, meat, fruit & veg. This was a turning point for our entire family.
