ATELIER

Bespoke Design & Build Ltd
Architecture in Glass

At Atelier BDB, we designed and developed a unique conservatory and glass extension system to give you the ultimate solution: **thermal efficiency performance, solar control glass**, Building Regulation compliance, striking design, abundance of light, and outstanding functionality in premium materials.

The only limit to what we can do with glass and aluminium is your imagination, allowing us to create a range of truly unique **conservatories, orangeries, glazed extensions, verandas, windows, bi-folding, and sliding doors**.

Our engineered portal frames will expand your glass extension and bridge your expectations with new proportions. To make this all possible, we do provide in house, complete, bespoke architectural design and build services from initial consultation through to survey, planning permissions, structural calculation, and building control to final completion.

"I recommend Atelier BDB warmly! The team had been very professional and are operating to the highest standards throughout the whole journey - from surveying, through execution and to installation. Any query had been responded and satisfied promptly and had been addressed in reasonable time. I will be looking forward to use them again in the future." *ilan Brodsky*

You. Your wife, Your child or grandchild. Your sister or friend.

Well-meaning help isn't a cure. Mothers in crisis need specialist treatment.
ONLY Menucha provides this.

We've confidentially helped over 700 community families, BUT we can't continue without your support.

"My aunt was a vibrant woman – young, energetic, always there for her children. Until a terrible disease robbed her of her vitality. The doctors tried their best, but I knew what she needed: powerful zechusim. I gathered all the cousins and asked them to host a Mikvah Tahara Association party with me at a local hall. I knew I did the right thing when my aunt chose to hold her seudas hodaah in that same venue..."
