ATELIER

Bespoke Design & Build Ltd
Architecture in Glass

At Atelier BDB, we designed and developed a unique conservatory and glass extension system to give you the ultimate solution: **thermal efficiency performance, solar control glass**, Building Regulation compliance, striking design, abundance of light, and outstanding functionality in premium materials.

The only limit to what we can do with glass and aluminium is your imagination, allowing us to create a range of truly unique **conservatories, orangeries, glazed extensions, verandas, windows, bi-folding, and sliding doors.**

Our engineered portal frames will expand your glass extension and bridge your expectations with new proportions. To make this all possible, we do provide in house, complete, bespoke architectural design and build services from initial consultation through to **survey, planning permissions, structural calculation, and building control to final completion.**

"I recommend Atelier BDB warmly! The team had been very professional and are operating to the highest standards throughout the whole journey - from surveying, through execution and to installation. Any query had been responded and satisfied promptly and had been addressed in reasonable time. I will be looking forward to use them again in the future." **Ilan Brodsky**

Sorry, we can't help you.

If you want a 100-night free trial on your mattress, we can't help you.

Here's why:

Most stores offering this trial will either charge you in full for even the tiniest stain, or take back this used mattress, re-cover it, and sell as new.

Those aren't options for us.

**Working with the
UK leading suppliers
since 1976!!**
