A baby with light hair and blue eyes, wearing a blue short-sleeved shirt and blue shorts, stands on a sandy beach. The baby is holding a wooden signpost with their right hand. The signpost has a white sign that says "30% off". The baby is looking to the right with a thoughtful expression, with their left hand near their chin. Trauma Truths No. 2

Birth Trauma Is A Serious Issue

Birth Trauma is a form of Post-traumatic Stress Disorder (PTSD), a debilitating condition that can follow the experience of something perceived as being out of your control. Left untreated, traumatic memories may not fade like other bad memories and can cause life-long problems.

Symptoms can include persistent, frightening thoughts, memories, or flashbacks of the ordeal (reliving the traumatic birth as if it were actually happening). Mothers can feel constantly on 'red alert' experiencing sudden irrational anger outbursts, depression, anxiety, and panic attacks. They may wake up in the night terrorised by nightmares.

Sufferers might go through the motions of motherhood but feel disconnected from the baby and lacking normal feelings of love. They may be hypervigilant - overly anxious about their baby's safety with intense feelings that something terrible is going to happen to their baby, constantly on the lookout for danger.

Motherhood can be a joy, so Menucha provides understanding, non-judgemental advice, specialised therapy services, and referrals. Our Birth Trauma Resolution Therapy (BTR) can remove the symptoms of trauma helping you to feel strong, move forward with life, and enjoy motherhood. **If we can help, let's talk.**

PATIENCE? NOT FOR PATIENTS.

You can't wait when it's your health on the line. Private care appointments happen within days; waiting for the NHS can take weeks – or longer.

Wait times are especially long for 'non-urgent' cases...

But when your elderly parent needs to see a specialist
– **Isn't weeks of waiting too long?**

When you're suffering an excruciating gallstones attack
– again – **does that feel minor?**

When your child writhes in pain due to Crohn's complications
– **can an operation wait?**

Over the past year and a half, the neetzotz chinuch line has expanded its area of coverage, and is now available to all kehillas throughout the UK. Through its state of the art automated appointment booking system which is both user-friendly and fully confidential, countless parents have availed themselves of the sage advice of the dedicated chinuch rabbonim.

All of our call handlers possess remarkable talent and knowledge to guide and support parents in an effective, professional and confidential manner. Additionally, they each have unique expertise, which we have delineated in their respective profiles:

Rabbi Winegarten

Rabbi Winegarten has more than half a century of experience in the direction of helping and supporting parents with Chinuch concerns. He has earned the reputation of being a master in understanding and advising today's generation.

Drawing on his experience as one of the founders of the North West London Clubhouse, Rabbi Winegarten is considered a specialist in guiding and supporting teenage boys and girls and their parents.

Rabbi Moshkovitz

Rabbi Moshkovitz, is an acclaimed Menahel in Manchester and is a popular address for parents seeking his wise counsel in parenting matters. He has been guiding many Mechanchim in recent years and is therefore very familiar with the 'Chinuch Scene'.

Rabbi Moshkovitz has particular experience in helping parents understand the schooling system and what they can expect when dealing with the challenging child.

Rabbi Dr Roth

Rabbi Dr Roth is chartered with the British Psychological Society and registered with the Health Care Professionals Council. He has worked extensively with families across the UK and his efforts have been met with great success.

He has vast experience in supporting parents of children and adolescents who are presenting with cognitive, learning, social, emotional & behavioural challenges.

Dear Customer,

I am writing to advise the קהילה of some important recent changes to the mobile networks in the USA.

Whilst here in the UK, we still have some use of the 3G mobile frequency, many countries have either limited or entirely switched off their 3G services.

As of March 2022, mobile network operators have started closing down their 3G operations throughout the USA. 3G is the network banding that many featurephones (especially Kosher featurephones) use to connect calls and texts. Although 3G is still operational in the UK, for the most part, it won't work in the USA.

If you have recently travelled to the USA with a Kosher/featurephone and your phone was working well, that may not be the case the next time you visit. The 3G network closures are taking place at irregular intervals and there is no reasonable way to know where, or even if, your current 3G connection will be supported.

Further complicating matters is that the 4G frequencies in the USA are on complete different bandings than those used in the UK and EU. In most cases, your UK/EU 4G featurephone will also not work. Unfortunately, there is nothing that can be done to make the connection viable as the infrastructure simply no longer exists.

We are incredibly proud to be a large supplier of Kosher featurephones, and will continue to serve our clients and the wider community in this way. If you would like any further information about alternative devices that are suitable for travelling to the USA, please do visit our stores or speak to our Mobile Support Team. As always, my team and I are also available to advise you on your handset options, with no obligation to purchase.

I am simply bringing this to the wider community's attention, as we have seen many cases of travellers who relied on the same devices used in previous trips, but upon arrival, realised that their phones no longer worked.

May I take this opportunity to wish all our customers and the entire community א גיטען זימער and a healthy summer ahead!

Maxi Rose
