IT'S JUST A VIRUS OR IS IT?

Change in your body lasting
three weeks or more?
Check it out with your GP

Our bodies often undergo short-term changes that may seem worrying, such as fatigue, muscle pain, loss of appetite and more. These symptoms are often caused by viruses and will usually disappear within a few weeks. However, if the symptoms persist after three weeks or more, make sure to check it out with your GP. **Remember, it may be nothing, but if it is, early detection is key.**

The logo for RCUK, featuring the letters 'RCUK' in a bold, dark blue sans-serif font. The letter 'C' is stylized with a small cluster of colorful dots (blue, green, yellow, red) inside it.

RCUK

Something exciting is
happening at RCUK Manchester...

A large, open cardboard box is the central focus, with its flaps spread out. Inside the box, two large, curved speech bubbles are visible. The top bubble is pink and contains the word 'WE'RE'. The bottom bubble is yellow and contains the word 'MOVING!'. To the left of the box, a red balloon is tied to the side. To the right, a blue balloon is floating. The background is a light blue sky with a few small stars and a green grassy area at the bottom. The overall style is bright and celebratory.

WE'RE

MOVING!
