CARBON COPY

The technology behind lab diamonds has made crucial advances in recent years, allowing companies to grow higher quality diamonds more rapidly and more cheaply. It has meant growing competition between lab diamond and mined diamond companies. Today it costs substantially less per carat to produce a CVD lab-grown diamond, compared to 15 years ago.

Synthetic diamonds go by many different names – lab-grown, lab-created, lab-made and even engineered diamonds. These names all point to the fact that synthetic diamonds are created in a laboratory or factory rather than occurring in nature and mined from the earth. Some synthetic diamond laboratories use advanced technology to mimic the conditions that natural diamonds undergo when they form beneath the earth's crust. This origin story is the main factor that sets synthetic diamonds apart from natural ones, since synthetic diamonds have essentially all of the same chemical, optical and physical properties and crystal structure as natural diamonds.

Whatever type of diamond you decide to buy; the most important thing is that you pick beautiful jewellery that speaks to you personally.

Mined and lab grown diamonds are both real diamonds so the decision is yours. Now, you simply have more choice.

LAUNCHING OHEL SARALA/ SIMCHAS OLAM in LONDON. the idea is connecting single girls or boys to daven for childless couples.

1

A single looking for a shidduch joins the Ohel Sarala Initiative

Joining the initiative requires a donation that will help fund the fertility treatment of a childless couple. There are no minimum or maximum amounts required. It's the goodwill and care that will bring about yeshuos for both.

2

Bonei Olam pairs her up with a childless couple

All parties involved remain anonymous to each other in order to protect the privacy of all participants. Without knowing each other's names an eternal bond is formed between two individuals who simply wish to build their own home.

3

They each pray on the other's behalf

Only the Hebrew names are exchanged. Both parties pray that their benefactor should merit a miracle.

THE BOYS CLUBHOUSE

a place to go
when there is no other

Urgent Appeal
27 - 28 June

SAVE A LIFE BUILD A FUTURE

Donate now at
charityextra.com/clubhouse

Every donation will be doubled

Charity number 1131948

Since 2009, the Boys Clubhouse has provided a secure and safe haven for Jewish teenagers in crisis.

It is often the place of last resort for adolescents who have become estranged from family and society. Many of these young men have suffered some form of personal trauma and some are victims of abuse. The Boys Clubhouse have proven that when given a second chance our young men can grow to be successful, contributing members of society.

The Boys Clubhouse's wide range of programmes is designed to help each boy discover and make use of his individual strengths and abilities. Using patience and perseverance they create positive change and help these young men to acquire the skills they need to replace a sense of failure with success in their life ahead.

There is now a generation of former Clubhouse members who have jobs, careers, and stable families of their own. Some of them are now providing employment and mentoring to some of the younger adolescents.

Due to restrictions on social gatherings, we have been unable to hold our bi-annual Dinner which is usually our main source of funding. COVID has placed additional strain on our resources with a 35% increase in referrals. We are therefore reaching out to the community to help us by supporting our first ever online campaign.

Thanks to our generous matchers, every donation will be doubled throughout the campaign. We thank you in advance for your generosity.

To find out more about The Boys Clubhouse please visit www.theclubhouse.biz

To support our campaign please donate at www.charityextra.com/clubhouse

Since 2019 we have supported **over 180** teenage boys and their families

Many of the boys we support, would be **homeless** without our help

To our dear brothers and sisters, Rachmonim bnei Rachmonim ,

**R' Nissan Moishe Silver z"l was born and raised locally here in Golders Green / NW London.
He was educated and learnt in our local institutions.**

After completing his studies here , he went to learn in Eretz Yisroel where he married and settled.

R' Nissan Moishe was an exceptional ba'al Middos who learnt and toiled in Torah, whilst supporting himself and his family through his work as a Soifer. He also gave of his time selflessly to others, learning with children who needed extra help, including those from families with no means to pay, with whom R' Nissan Moishe learnt free of charge, with happiness and good will.

2 years ago he fell ill and suffered terribly, but accepted everything with love. Unfortunately, to the great sorrow of his family and many close friends, he was recently niftar at the tender age of 29, **leaving behind a young widow and 3 little orphans, the youngest only a few months old .**

This young family have been left on their own and cannot support themselves moving forward.

Therefore, his friends and close associates, especially those who have grown up and learnt together with him in NW London, have taken upon themselves to be that support, establishing a trust for the orphans to help sustain themselves until their marriage. This trust will be run by trustworthy and expert individuals who will manage the trust in the best way possible.

We beseech our brethren to follow in the ways of Hashem in supporting a widow and her orphaned children, and contribute generously and with an open heart . This is a hugely important Mitzva.

May HKBH bless you all with only shefa, bracha, and hatzlacha for the rest of your days, with only nachas from your families, until the coming of Moshiach, Amen.

I combine many years of teaching R' Wolbe's Torah approach, as well as therapeutic experience in family therapy, and Non-Violent Resistance (NVR). NVR is an evidence-based approach used to enable parents to regain authority, whilst conveying love and relationship. It is used in CAMHS and by professionals around the world.

Can you survive a year with zero income?

The farmer can't. By abandoning his livelihood, he gives up his means for survival. He can't afford the lease on his land. He can't pay the grocery bills. He can't support his family. Without our help, he won't make it through the year.
